

Care Dimensions Dementia GUIDE

Dementia is a journey, but you don't have to go through it alone.

What is Dementia GUIDE?

Dementia GUIDE is a program developed by Medicare to offer increased support and education to individuals with mild, moderate or severe dementia and their loved ones. The goal of this program is to provide compassionate, person-centered support that promotes quality of life.

How We Support You

With Dementia GUIDE you will have access to:

- Personalized Care Plans: Tailored care that adapts as needs evolve.
- Comprehensive Assessments: To understand the specific challenges and strengths of each individual.
- Ongoing Support: Regular check-ins to help you navigate the complexities of dementia care with confidence.
- Education and resources tailored to support each patient and family.

The Care Dimensions GUIDE Team

Our team specializes in dementia care, focusing on maintaining dignity, and comfort for both individuals and their caregivers.

Why Choose Dementia GUIDE?

We believe that everyone affected by dementia deserves high-quality, compassionate care and reliable guidance. Whether it is understanding symptoms, accessing resources, or connecting with a community that cares, Dementia GUIDE is here to support you every step of the way.

Who Qualifies:

- If you/your loved one has a diagnosis of mild, moderate or severe dementia you may qualify for these services
- You have traditional Medicare
- You live in a home, assisted living facility, group home, or rest home; you cannot live in a nursing home long term
- You are not enrolled in PACE or hospice
- There is no cost to you for this program

Reach out to Dementia GUIDE today. Let us help support you and your loved ones through this journey.
